

**Amendments to the Specification:**

Please replace the paragraph beginning at page 19, line 8 (the paragraph under the heading [0080]) with the following rewritten paragraph:

If the decision module 42 of printer 40 decides that the received coin information 51c is not insufficient (Step S125), the printer module 43 performs printing of the print data 52 (Step ~~S86~~ S126). If printing completes normally (Step S127), the controller 35 of client 30 is requested to unlock the required coin information 51c and update the money information (Step S128).
